Summary

Training rotation

Content

• Doctoral students interested in conducting a training rotation must write a one page proposal delineating the educational objectives and the means by which they intend to achieve them.
• This proposal must be approved by the supervisor, by the host laboratory, as well as by the doctoral program director.
• Training rotations must take place within the first two years of doctoral studies and can last 1-4 months, with a maximum of 4 months in total.
• The examination procedure consists in a project report written in the style of the candidacy exam report.
