Summary
The course focuses on morphological and analytical structure research methods for materials science using electrons, photons and ions.

Content
Please find information on the link below.

Note
Course taking place at ETH Zurich on Campus Hönggerberg
Anders Meibom (EPFL) also teaches this course

Keywords
Atom Probe; EDX/ EELS; FE-SEM EDX/EBSD; FE-SEM EDX/WDX; SIMS; Mass spectroscopy

Learning Prerequisites
Required courses
Degree in materials science, physics, chemistry
