

MSE-420

Cementitious materials (advanced)

Scrivener Karen

Cursus	Sem.	Type
Materials Science and Engineering	MA1, MA3	Opt.

Language of teaching	English
Credits	2
Session	Winter
Semester	Fall
Exam	During the semester
Workload	60h
Weeks	14
Hours	2 weekly
Courses	2 weekly
Number of positions	

Summary

Discussion of topical subjects related to the current use of cementitious materials. Through a guided literature survey prepare a presentation in a group on a topical issue

Content

1. Introduction - overview of structure of cementitious materials, advantages and disadvantages.
2. Hydration.
3. Supplementary cementitious materials.
4. Understanding and characterising the pore structure of cementitious materials.
5. Transport properties.
6. Durability issues.
7. Calcium aluminate cements.
8. Ultra high performance concrete.
9. Admixtures and rheology

Keywords

Cementitious materials, hydratin, durability, characterisation methods

Learning Prerequisites**Required courses**

MSE 322 - Building Materials and Laboratory work

Recommended courses

Building materials

Learning Outcomes

By the end of the course, the student must be able to:

- Explain Chemical and physical processes underlying the behaviour of cementitious materials
- Interpret scientific papers related to cementitious materials
- Analyze appropriateness of different characterisation techniques
- Analyze economic and ecological appropriateness of different materials solutions
- Design lecture on chosen topic

Transversal skills

- Plan and carry out activities in a way which makes optimal use of available time and other resources.
- Evaluate one's own performance in the team, receive and respond appropriately to feedback.
- Negotiate effectively within the group.
- Access and evaluate appropriate sources of information.
- Make an oral presentation.
- Summarize an article or a technical report.
- Write a literature review which assesses the state of the art.

Teaching methods

Ex cathedra

group discussion of papers from literature

Expected student activities

attend lectures

find relevant paper from search engines

present summary of findings

prepare lecture in team

Assessment methods

contribution to discussion sessions throughout course

presentation at intermediate and final stages

Supervision

Assistants Yes

Forum No

Resources

Bibliography

Via search engines, e.g. scopus

Notes/Handbook

Handouts for lectures to be annotated by students
