

BIO-699(m) Training Rotation (EDMS)

Profs divers *

Cursus	Sem.	Type
Molecular Life Sciences		Obl.

Language of teaching
Credits 1
Session
Exam Project report
Workload 30h
Hours 14
Project 14
Number of positions

Frequency

Every year

Remark

All year long -Training rotations must be approved by the supervisor, by the host laboratory, as well as by the doctoral program director

Summary

Training rotations

Content

- Doctoral students interested in conducting a training rotation must write a one page proposal delinating the educational objectives and the means by which they intend to achieve them.
- This proposal must be approved by the supervisor, by the host laboratory, as well as by the doctoral program director.
- Training rotations must take place within the first two years of doctoral studies and can last 1-4 months, with a maximum of 4 months in total.
- The examination procedure consists in a project report written in the style of the candidacy exam report.

Note

Each month of training rotation gives 1 ECTS credit.
