Current Topics in Chemical Biology 2

Fierz Beat, Heinis Christian, Vacat .

Cursus	Sem.	Type
Chemistry and Chemical Engineering		Obl.

Language of teaching	English
Credits	1
Session	
Exam	Written
Workload	30h
Hours	14
Courses	14
Number of positions	

Frequency

Every year

Remark

Next time: Spring semester 2019

Summary

Invited scientists in the field of chemical biology present their research in lectures of 1 hour (14 speakers per semester).

Content

14 lectures per semester about research activities of invited speakers. The talks will cover diverse topics across the field of chemical biology. The themes may include but are not limited to the following ones: study of chemical mechanisms in biology, understanding natural biological systems using chemical and biological tools, expanding biology through chemistry, development and application of chemical or biochemical techniques, drug development with chemical or biological tools, etc.

The speakers and talk titles will be announced at the beginning of each semester on a website.

Note

Enrolment: edch@epfl.ch

Keywords

chemical biology, research talks

Learning Prerequisites**Required courses**

M.Sc. in chemistry, biochemistry, biology or a related science
