Courses	28
Number of positions	

Summary

This year the course will be held at the University of St. Gallen from 4-5 June.

Content

The seminar aims at improving the competences of doctoral students in the area of management, technology and innovation to publish their work in leading academic journals. The seminar will be conducted as a cooperation between the University of St. Gallen, EPF Lausanne and ETH Zurich in order to improve research excellence in the field of management. This year the seminar will take place in St Gallen on 4th and 5th of June (2 full days from 8 am - 6 pm).

The seminar addresses following questions:

- #How to set up research for academic journals?
- #How to structure an academic paper for publication in selected journals?
- #How to address editorial boards?
- #How to cope with editorial recommendations?
- #How to set up a publication strategy?

Target journals to be analyzed are leading journals in the area of strategy, management, technology and innovation. In addition to the journal analysis we will discuss selected papers in management and innovation research.

Registration is to be done through IS-Academia.
