

# MSE-420 Cementitious materials (advanced)

Scrivener Karen

Cursus	Sem.	Type
Materials Science and Engineering	MA1, MA3	Opt.

Language of **English** teaching Credits Winter Session Fall Semester Exam During the semester Workload 60h Weeks 14 Hours 2 weekly 2 weekly Courses Number of positions

#### **Summary**

Discussion of topical subjects related to the current use of cementitious materials. Through a guided literature survey prepare a presentation in a group on a topical issue

#### Content

- 1. Introduction overview of structure of cementitious materials, advantages and disavantages.
- 2. Hydration.
- 3. Supplementary cementitious materials.
- 4. Understanding and characterising the pore structure of cementitious materials.
- 5. Transport properties.
- 6. Durability issues.
- 7. Calcium aluminate cements.
- 8. Ultra high performance concrete.
- 9. Admixtures and rheology

#### **Keywords**

Cementitious materials, hydratin, durability, characterisation methods

#### **Learning Prerequisites**

#### **Required courses**

MSE 322 - Building Materials and Laboratory work

### **Recommended courses**

**Building materials** 

# **Learning Outcomes**

By the end of the course, the student must be able to:

- Explain Chemical and physical processes underlying the behaviour of cementitious materials
- Interpret scientific papers related to cementitious materials
- Analyze appropriatness of different characterisation techniques
- Analyze economic and ecological appropriateness of different materials solutions
- Design lecture on chosen topic

# Transversal skills

- Plan and carry out activities in a way which makes optimal use of available time and other resources.
- Evaluate one's own performance in the team, receive and respond appropriately to feedback.
- Negotiate effectively within the group.
- Access and evaluate appropriate sources of information.
- Make an oral presentation.
- Summarize an article or a technical report.
- Write a literature review which assesses the state of the art.

# **Teaching methods**

Ex cathedra group discussion of papers from literature

# **Expected student activities**

attend lectures find relevant paper from search engines present summary of findings prepare lecture in team

#### **Assessment methods**

contribution to discussion sessins throughout course presentation at intermediate and final stages

# Supervision

Assistants Yes Forum No

# Resources

# **Bibliography**

Via search engines, e.g. scopus

### Notes/Handbook

Handouts for lectures to be annotated by students
