Language of English teaching Credits 30 Session Winter, Summer Semester Fall Oral Exam Workload 900h Weeks 900 weekly Project Number of positions

### **Summary**

The student carries out an academic or industrial research project. He/she has to display the knowledge and capability required for independent work in the field of Materials Science & Engineering.

#### Content

The Master thesis is a personal and original work covering theoretical and practical aspects of materials science using the knowledge of the student acquired during his/her studies and enable him/her to develop deeper knowledge, understanding, capabilities and attitudes in the field of materials science. This project is made under the supervision of a professor of the section of Materials Science and Engineering.

# **Learning Outcomes**

By the end of the course, the student must be able to:

- · Formulate and deal with complex issues critically, indepently and creatively by applying a holistic view
- Plan and use adequate methods to conduct qualified tasks in given framwork
- Manage an individual research project
- · Apply the comptences to a specific subject
- Present data coherently and effectively
- Develop expertise in a specific area of research
- · Assess / Evaluate the results critically
- Compose the project in written form in a scientific report
- Expound the project in oral form for a scientific audience

#### Transversal skills

- Set objectives and design an action plan to reach those objectives.
- Use a work methodology appropriate to the task.
- · Communicate effectively, being understood, including across different languages and cultures.
- Assess progress against the plan, and adapt the plan as appropriate.
- Give feedback (critique) in an appropriate fashion.
- Take feedback (critique) and respond in an appropriate manner.
- · Collect data.
- Access and evaluate appropriate sources of information.

## **Teaching methods**

The student will have to write a report which will be evaluated by a jury. An oral defense will take place after submitting the report.
