<b>Hours</b>	<b>15</b>
Courses	6
Exercises	5
TP	4
<b>Number of positions</b>	<b>20</b>

**Summary**

This workshop will expose you to a combination of readings, discussions, and hands-on exercises aimed at cementing your understanding of, and ability to conduct qualitative research - especially gathering, analyzing, and theorizing different types of qualitative data.

**Content**

This workshop will expose you to a combination of readings, discussions, and hands-on exercises aimed at cementing your understanding of, and ability to conduct qualitative research - especially gathering, analyzing, and theorizing different types of qualitative data. Ahead of the workshop, you will be required to complete several pre-readings, which will provide us a common language for conversation and reflection. In addition, during the workshop, besides engaging in discussion, you will conduct observations, interviews, and analyze data that you will gather. Should you be working on, or planning for a qualitative project, you will also have the opportunity to present it and to gain feedback from both the instructor as well as other workshop participants. By the end of this three-day workshop, you should feel more comfortable with conducting, and building theory from qualitative research. I look forward to meeting you, and working with you to refine your knowledge and skills as a qualitative researcher!

Tentative Schedule Day 1: (3-7pm)

Introduction, Research Presentation & Discussion

3:00-4:30pm

- Research Presentation 5:00-7:00pm
- Workshop Overview and Introductions
