All year long -Training rotations must be approved by the supervisor, by the host laboratory, as well as by the doctoral program director

Summary

Training rotations

Content

- Doctoral students interested in conducting a training rotation must write a one page proposal delinating the educational objectives and the means by which they intend to achieve them.
- This proposal must be approved by the supervisor, by the host laboratory, as well as by the doctoral program director.
- Training rotations must take place within the first two years of doctoral studies and can last 1-4 months, with a maximum of 4 months in total (4 ECTS).
- The examination procedure consists in a project report written in the style of the candidacy exam report.

Note

The possible duration of this training rotation is of maximum four months (4 ECTS). The specificity of this course BIO-699 is as follows:

- one full month of training rotation gives 1 ECTS
- two full months of training rotation give 2 ECTS
- three full months of training rotation give 3 ECTS
- four full months of training rotation give 4 ECTS
