

BIO-699(m)

**Training Rotation (EDMS)**

Profs divers \*

Cursus	Sem.	Type
Molecular Life Sciences		Opt.

Language of teaching	English
Credits	1
Session	
Exam	Project report
Workload	30h
<b>Hours</b>	<b>14</b>
Project	14
<b>Number of positions</b>	

**Frequency**

Every year

**Remark**

All year long -Training rotations must be approved by the supervisor, by the host laboratory, as well as by the doctoral program director

**Summary**

Training rotations

**Content**

- Doctoral students interested in conducting a training rotation must write a one page proposal delineating the educational objectives and the means by which they intend to achieve them.
- This proposal must be approved by the supervisor, by the host laboratory, as well as by the doctoral program director.
- Training rotations must take place within the first two years of doctoral studies and can last 1-4 months, with a maximum of 4 months in total (4 ECTS).
- The examination procedure consists in a project report written in the style of the candidacy exam report.

**Note**

The possible duration of this training rotation is of maximum four months (4 ECTS). The specificity of this course BIO-699 is as follows:

- one full month of training rotation gives 1 ECTS
- two full months of training rotation give 2 ECTS
- three full months of training rotation give 3 ECTS
- four full months of training rotation give 4 ECTS
