

MSE-663

Powder Diffraction School - Modern Synchrotron Methods

Casati Nicola, Testino Andrea, Van Petegem Steven, Various lecturers

Cursus	Sem.	Type
Materials Science and Engineering		Opt.

Language of teaching	English
Credits	2
Session	
Exam	Oral
Workload	60h
Hours	34
Lecture	23
Exercises	9
Practical work	2
Number of positions	40

Frequency

Every 2 years

Remark

Next time: September 11-15, 2023

Summary

Modern synchrotron-radiation methods not only provide data of exceptional quality, but have allowed previously inaccessible experiments to be performed. The school will give a broad overview of all possibilities using synchrotron radiation, including hands-on practicals.

Content

<https://www.epfl.ch/research/domains/ccmx/courses-and-events/2023pds/>

Keywords

powder diffraction, x-rays, neutron diffraction

Learning Prerequisites**Important concepts to start the course**

Participants are supposed to be already familiar with both the fundamentals of crystallography and X-ray powder diffraction.

Assessment methods

Written exam
